

DICTION SINE CODIFICATIO

Old as time:

Boys will be boys;

Boys who 'like' other boys

Will still be boys

among the boys.

What IS the problem?

Whatever

predilection

proclivities boys will have,

those boys with the roving eyes,—

they will pursue

at no harm to any soul,

just as the boys who naturally 'like' girly-girls.

Boys will still be boys—

Some,...who desire other boys,...who smile.

What IS the problem?

So walk on tall

though they want to stone you;

It is the cultish hypocritical judgemental

who should be afraid to meet their maker;

They need repentance, pity, empathy, atonement,

to all fellows—

a new enlightenment in LOVE.

Boys will be boys,

Boys who desire boys will still be boys—

What IS the problem?

I awake with you in my eyes.
